What is Florida High School High Tech?

Florida High School High Tech is designed to provide high school students with all types of disabilities the opportunity to explore jobs or postsecondary education leading to in-demand careers.

Program Goals

- Increase the high school graduation rate of youth with disabilities.

- Increase their enrollment in postsecondary institutions.

- Improve their participation in education, vocational and employment related activities regarding in-demand careers.

Why Should You Support a High School High Tech Program in Your Community?

- If you are concerned about youth with disabilities and are willing to give them equal opportunities as their peers.

- If you are interested in investing in the future leaders of America, we invite you to become a partner in the High School High Tech Program.

Who is Eligible?

Students with all types of disabilities in grades 9-12 who are on a standard diploma track and have a minimum GPA of 2.0.

Students with an interest in exploring careers and the growing role of technology in today's industries, as well as post-secondary education and training options.

Student Participation

Students can participate in various activities, including:

- Industry Site Visits
- College and University Tours
- Mentoring/Job Shadowing
- Summer Internships
- Service Learning
- After-School Workshops that feature employability skills training, guest speakers, leadership development and much more!
